LOGISTICS ALONG THE ENTIRE SUPPLY CHAIN

Optimo Logistics offers services along the entire logistics value chain – from packaging and storage to national transport and international freight forwarding.

Packaging

We manufacture packaging of all types and sizes, ranging from lightweight cardboard packaging and shrink-wrap to solid wooden packaging. We supply our customers throughout Switzerland or pack their products ourselves.

Transport

We transport our customers' goods ourselves, both throughout Switzerland with our own fleet of vehicles and internationally with our own forwarding team or through our tried-and-tested global network – for import, export and cross-trade deliveries by road, rail, sea or air. We also assist our customers in obtaining certifications and issuing Carnet ATAs as well as with any questions relating to forwarding, transport and customs.

Warehouse logistics

We offer comprehensive warehouse logistics services, complemented by our experienced intralogistics team, to whom, if you wish, you can outsource your entire logistics requirements. Alternatively, you can opt for individual services tailored to your specific needs.

Removals

Since 2014, our service portfolio has also included the «Peterli Umzüge» division. Recognised by its distinctive blue logo, the company has successfully handled tens of thousands of private and business removals in and around Winterthur since 1947.

SPEDLOGSWISS

Optimo Logistics – Part of the Optimo Group

The Optimo Group was formed in 2001 as the result of the merger of various divisions of the Sulzer Group. Thanks to our Sulzer DNA, we continue to carry a piece of Swiss industrial history in our hearts to this day.

By continuing to evolve, we have grown into a strong, innovative service partner, offering customised logistics solutions throughout Switzerland as well as technology, staff leasing, and logistics services, rental tools, printing and IT solutions.

Being part of the Optimo Group not only guarantees us financial security and independence, but also offers us a broad range of expertise and the necessary flexibility. Today, approximately 250 employees are committed to serving the needs of our wide range of customers.
